

## Short Curriculum Vitae

After graduating from the Medical School, Dr. Georgios Boutzios specialized in Endocrinology, Diabetes and Metabolism at the Endocrinology Unit, 1st Dept. of Internal Medicine, University of Athens, Greece. He has prepared his Doctoral Dissertation at the Medical School, National and Kapodistrian University Athens Greece. He continued his research as a post-doc researcher in the Department of Pathophysiology at the University of Athens. The long-standing research interest is the study of cellular mechanisms that underlie inflammation and fibrosis in thyroid eye disease. Within this framework, since 2018, he has been leading his own Lab for TED.

As part of his further continuing education, after completing his specialty, the doctor was retrained: 1. in Greece in Ultrasound of Endocrine Organs at the Certified Ultrasound Department of the General State Hospital of Athens "Georgios Gennimatas" 2. in Germany in Diabetes Mellitus at the Certified Diabetes Center, with professor U.A Müller, at the University of Jena, 3. in Germany in Neuroendocrine Oncology at the Center of Excellence certified from ENETS, Charite Virchow Campus with Professor M. Pavel, Humboldt University Berlin. 4. In USA in Thyroid Eye Disease at Shiley Eye Institute in La Jolla, with professor D. Kikawa, at the University of California, USA. He has been trained to conduct research work and holds GCP R3. He is currently working as a Head in the Endocrinology-Diabetes & Metabolism Unit, Department of the Pathophysiology, Laiko University Hospital, Athens, Greece.

Since 2017, the doctor established at the Laiko University Hospital, with the collaboration of a scientific team dedicated in TED, the 1st PanHellenic outpatient clinic for Autoimmune Endocrine Diseases, specialized in autoimmune diseases of the endocrine organs and their complications, such as thyroid eye disease, providing treatments with optimal results. The scientific group submitted a request to join in the EUGOGO as EUGOGO Center.

The doctor is also a member of the National Center of Expertise for organ-specific and systemic autoimmune diseases and a member of the National Center of Expertise for Rare and Complex Bone Diseases with an Autoimmune Background. Georgios shares his work at [researchgate.net](https://www.researchgate.net). (hi-Index 20).
